

# Session 6

## Group Discussion Report- China

# Welcome to China!

昵图网 www.nipic.com BY: xiao1021

# Selected top priorities of milestones

## **Top Priority**

**1.2 – By 2030, all countries will have made progress towards halving inequalities in access to a health worker**

## **2<sup>nd</sup> Priority**

**2.4 – By 2030, partners in the UN Sustainable Development Goals will have made progress on Goal 3c, to increase health financing and the recruitment, development, training and retention of the health work force**

## **3<sup>rd</sup> Priority**

**3.3 – By 2020, all countries will have regulatory mechanisms to promote patient safety and the adequate oversight of the private sector**

# Plan for effective implementation

(Steps and key stakeholders to involve)

Ranking	Milestone	Involved Stake holders	Steps	Time line
01	1.2	MoH, MoE, MoF, NDRC, State Council, MoHR & SS, WHO, Relevant UN partners	<ol style="list-style-type: none"><li>1. To do a rapid assessment on current situation of demand &amp; supply</li><li>2. Share the assessment results with involved stake holders</li><li>3. Prepare an operational/ implementation plan to remove the gaps identified</li><li>4. Monitor the plan</li></ol>	By 2030
02	2.4	MoH, MoE, MoF, NDRC, State Council, MoHR & SS, WHO, Relevant UN partners	<ol style="list-style-type: none"><li>1. The plan for the development of HRH in China (2011 to 2020) is in place</li><li>2. Mobilize resources from both central and local government</li><li>3. Regular monitoring on implementation of this plan</li></ol>	2011 - 2020
03	3.3	MoH, local government, SFDA, Private Hospital Association	<p>Chinese Government's healthcare reforms has identified patient safety as a top priority in patient centered care</p> <ol style="list-style-type: none"><li>1. Identify the gaps by doing a proper situational analysis</li><li>2. Enable policymakers to prepare required regulations and laws by providing the evidences</li><li>3. To establish an institution/body to implement and oversight the mechanism</li></ol>	By 2020

# Plan for effective implementation

(How to monitor and evaluate the progress of implementation)

- Chinese government has already launched its HRH development plan, 2011 – 2020 as well as monitoring & evaluation index system with 83 indices including a system index, and core indicators. The process of evaluation consists of annual monitoring, a mid term assessment in 2015 and final one in 2020.
- Revise or adjust the above mentioned M & E framework according to the new priorities on HRH identified.
- Implement the revised M & E accordingly

# Challenges

- Inter sectoral coordination
- Financial investment from local governments
- Migration of rural population to urban areas & rapid urbanization
- Huge population & ageing population
- Low per capita expenditure on health
- Low re-imburement for rural residents
- HRH data base is in initial stage which has not fulfilled the requirement
- Hard to reach areas due to geographical containt

## Key success factors for implementation

- Strong political commitment and support
- Rapid economic growth and financial stability
- Strong law enforcement & regulatory framework
- High quality production of health workforce
- Advanced technology
- Infrastructure development
- Improved work environments

Thank you
